

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application. Please cancel claims 2, 5-8, 10, 11, 14, and 15. Please amend claims 1 and 9 as follows.

Listing of Claims

1. (Currently Amended) A battery changing system to change the battery block of an industrial truck, comprising:

~~an external~~ a roller conveyor external to the industrial truck, at least a portion of which conveyor can be raised and lowered,

wherein the ~~external~~ roller conveyor is configured to be placed underneath a battery compartment of an industrial truck that holds a battery block, ~~and~~ wherein a floor surface of the battery compartment of the industrial truck is provided with at least one opening to receive at least one roller of the roller conveyor,

wherein the battery block is movable all the way out of the battery compartment in a lateral direction of the truck by means of the roller conveyor,

wherein the roller conveyor includes a first segment and at least one movable second segment,

wherein the first segment comprises a pair of spaced first beams, each having a plurality of rollers, wherein the second segment comprises a second beam located between the first beams and having a plurality of rollers, with the second beam being longitudinally extensible and retractable with respect to the first beams, wherein a stop is located on first segment to limit movement of a battery block, and

wherein a retaining device is located on the second beam and is configured to engage the truck to prevent relative movement between the roller conveyor and the truck during movement of the battery block.

2. (Canceled)

3. (Original) The battery changing system as claimed in claim 1, wherein the floor of the battery compartment of the industrial truck is provided with a plurality of openings, with each opening configured to receive a roller of the roller conveyor.

4. (Original) The battery changing system as claimed in claim 1, wherein the floor of the battery compartment of the industrial truck is provided with one opening for receiving a plurality of rollers of the roller conveyor.

5-8. (Canceled)

9. (Currently Amended) The battery changing system as claimed in claim 8, wherein the second segment is mounted by means of a guide device on the first segment so that it can move longitudinally.

10-11. (Canceled)

12. (Original) The battery changing system as claimed in claim 1, including a drive device to move the battery block.

13. (Original) The battery changing system as claimed in claim 12, wherein the drive device includes a drive for at least one roller of the roller conveyor.

14-15. (Canceled)
